

NEW CICS Transaction Server v4.1 Curriculum Now Available

Demand for CICS TS v4.1 illustrates how important business and applications are to clients.

Las Vegas, NV (May 4, 2010) - Interskill Learning today announced the release of its new online training curriculum for CICS Transaction Server v4.1 at IBM IMPACT 2010.

“The demand for CICS TS v4.1 illustrates how important revitalizing business and applications are to clients, and this is reflected in our continued investment in CICS TS,” said Dave Andrews, director IBM CICS. “The new CICS education offerings will help ensure that the new capabilities provided by CICS will continue to nurture vitality for users.”

The new curriculum’s nine programming and two operations courses offer 46 hours of comprehensive CICS TS training that is instantly available, anywhere, anytime. The curriculum joins over 150 other mainframe computing titles.

“The release of Interskill Learning’s v4.1 CICS curriculum further enhances the Datatraining product as the only up-to-date, comprehensive e-learning resource available to the mainframe computing industry.” said Interskill Learning’s Vice President, Darren Surch.
